Bear Lake Log Homes
Reid and Terry Stewart

When we bought our lot the first person we met was Reid. He happens to live next door to us in St. Charles. Reid and Terry have since become good friends. They were very helpful in deciding on plans and even the location of the home on our property. The quality of construction is more than very good (I believe Reid is a perfectionist). The changes we made along the way were met with enthusiasm and were quickly completed. Our log home could not have turned out better; we are very pleased with it. We love to show off our home to everyone.

We recommend Bear Lake Log Homes to everyone that wants a quality built home.
