Dear Reid and Terry:

Now that a year has passed since the formal finishing of the cabin at Bear Lake, I want to tell you both how pleased I am with the work done by Bear Lake Log Homes.

The fact that the cabin was built while I was thousands of miles away and you both had to interpret my instructions through the barriers of distance and my ignorance about log building is a testament to BLLH's integrity and knowledge. When I began my plans to build in 1999, I found Bear Lake Log Homes through your Internet website. After corresponding with you, I liked what I was hearing but didn't allow that to guide me completely. I want you to know that I queried the Idaho and Utah Better Business Bureaus, chambers of commerce in the Bear Lake Valley, local real estate agents, homeowners insurance companies' representatives, and as many locals as I could find. BLLH's reputation is solid, even with your competitors!

I would recommend Bear Lake Log Homes to anyone. The cabin is well built and complies with all state and local codes. To my knowledge, the state inspector came once and approved the cabin as soon as the deck was finished. I would call that trouble-free construction! In addition, it is a gorgeous cabin, and I am proud to own it, and can't wait to live in it year round. Please give my name to anyone who might wish to discuss this recommendation. I will be glad to talk to them. Or, rather, take them on a tour of the cabin so potential customers can judge for themselves the quality of BLLH's work.

Sincerely,

Karen Smith
